

Polycom® VoiceStation® 300

Features and Benefits

The quality of Polycom designed for offices and small meeting spaces

Polycom's patented Acoustic Clarity Technology

- Full-duplex for simultaneous, natural, free-flowing conversation and more productive calls
- Users don't have to wait for participants on the far end to stop talking before breaking into a conversation

Dynamic Noise Reduction (DNR)

- Automatically reduces room background noise – from fans, projectors, heating and air conditioning – for clearer sound and more efficient conferencing

360-degree room coverage

- A powerful, digitally-tuned custom speaker and three sensitive microphones provide uniform coverage from up to 7 feet away

Compact industrial design

- Fits well on a desk or small table, making it a great solution for offices

Easy to use and install

- No training required, connects into any analog phone jack

Convenient controls

- Volume, mute, redial, flash and hold are located on an intuitive, easy-to-use keypad

Auxiliary output jack

- Allows connections to other peripherals, such as an audio recorder

Single-cord connection to phone console

- Eliminates cable clutter on the tabletop
